

**AMBREY** 

**GUARDIAN**

# GUARDIAN

With over 15 High Risk Areas and threats emerging and developing, it is important that masters receive vessel and area specific operational support during voyages.

**GUARDIAN** is a best-in-class digitally supported **Watchkeeper Service**, designed to deliver operational support requirements and provide clients with an optimised and dynamic risk assessment, to keep risk at the lowest acceptable level wherever and whenever it is most needed.

**We oversee every stage of the voyage - your vessel, its route and its proximity will be constantly monitored as it joins the largest risk managed fleet in the world.**

**AMBREY** combines the world's largest maritime team of operations managers, watchkeepers, in house thematic and geographical analysts with our 24/7-365 Global Operations Centre to deliver this unique service.

**GUARDIAN** proactively identifies your risk, informs you of optimal mitigation, and supports your operations to reduce risk.

## GUARDIAN RESPONDS TO SENTINEL ALERTS

- SENTINEL Alerts visibility - global coverage of crime, war, activism, militancy, and migration.
