SENTINEL

SENTINEL

VESSEL OVERVIEW

Former patrol ship operated by the Border Force in the role of patrolling the waters of the United Kingdom - now deployed within International waters as a Security Escort Vessel (SEV).

KEY FEATURES

Fast response vessel, with the capability to deliver security escorts and safety support.

Large working cargo deck

Dedicated single-man operation davits and RIB tracking systems.

Equipped with specific facilities for a multiple role support - disaster relief, anti-pollution, fire fighting, rescue work or interception of other vessels.
